TESTIMONIAL FOR SHOLTO MATTHEWS CHARTERED ACCOUNTANT

In early 2000, after a very satisfied client of SCH Matthews Chartered Accountants convinced us of the benefits of using this company, we arranged for S C H Mathews to become the Accountant for our small family business. A few years later Sholto guided us through the process of setting up an additional company.

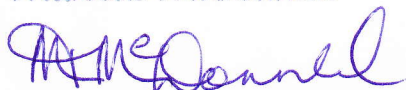

Sholto Matthews also provides advice for my personal finances. He has guided us through the setting up of a couple of family trusts. We were delighted when he agreed to be appointed as a trustee on both of our trusts. His expert guidance has been invaluable, as he totally understands both our business and personal financial situations.

For the past 12 years we have highly valued and absolutely enjoyed Sholto's friendship and great sense of humour, he is always fun to have around.

His integrity cannot be questioned, as well as the quality of his advice. We know that he is always readily available to offer the best options and advice for our businesses.

We thank Sholto for his wonderful support in helping us grow our businesses over the past twelve years, and have no hesitation what so ever in recommending him to any business or individual who may be looking for a competent and professional financial advisor, who at the same time can provide personal friendly service with good value for money.
